ADMN 479: Work Integrated Learning Course Overview

Athabasca University
Faculty of Business

ADMN 479: Work Integrated Learning

This course offers a comprehensive blend of theoretical and practical learning, allowing students to apply academic concepts to real-world business scenarios.

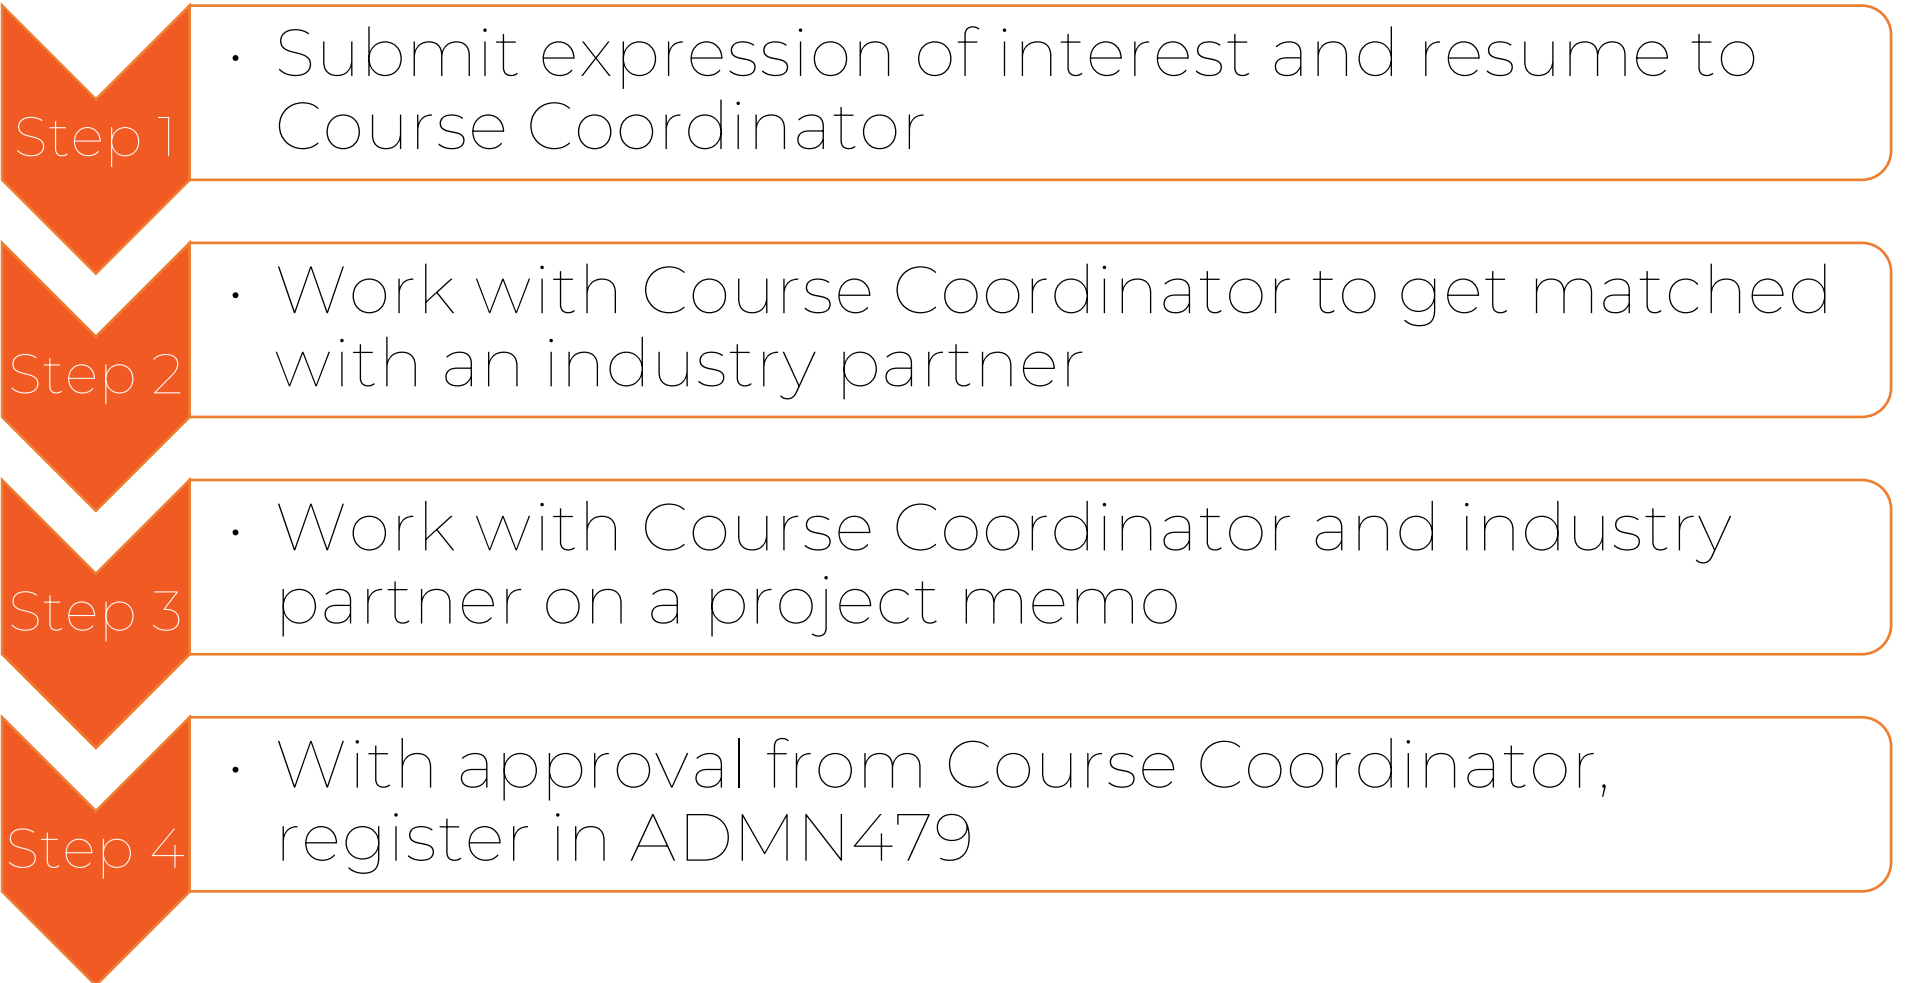

Through collaborating with a diverse range of industry partners, students will engage in applied projects across a variety of business disciplines, such as accounting, business management, marketing, finance, and others.

Approval and Matching Process

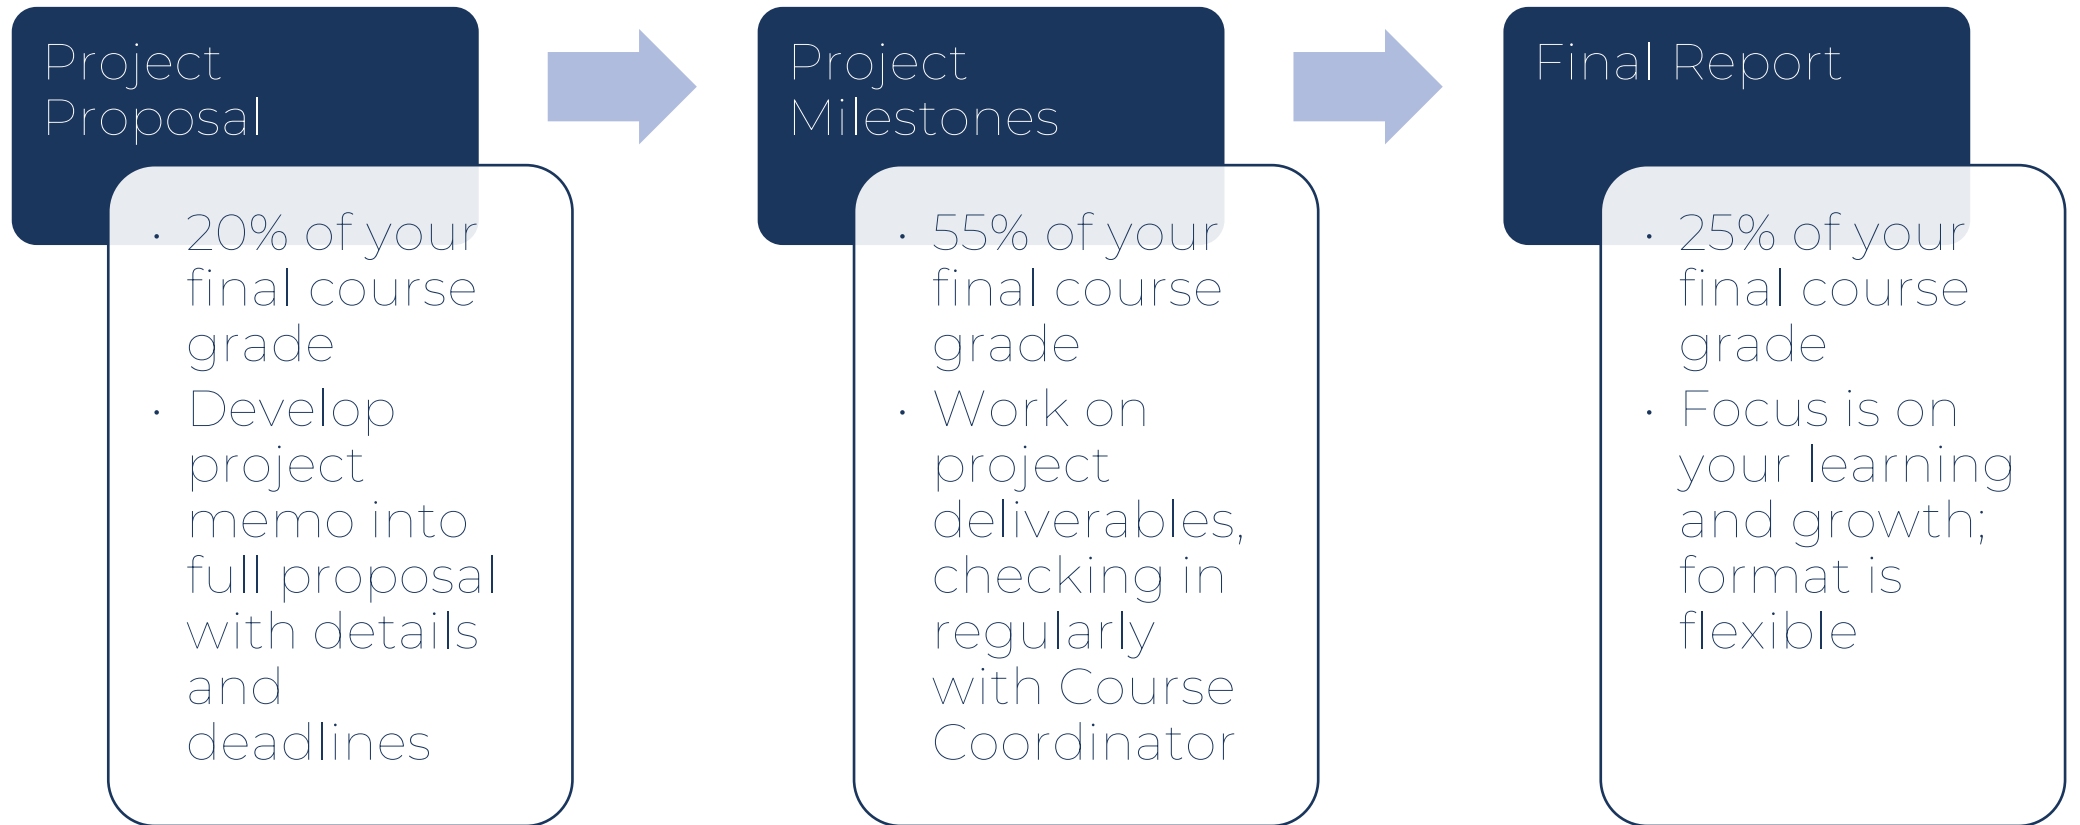

Registration in ADMN 479 is only approved after a project memo has been agreed to.

This approval and matching process may take several weeks.
