

Nutrition (NUTR) 496

Nutrition Projects (Revision 1)

Status:

Replaced with new revision, see the [course listing](#) for the current revision

Delivery mode:

Individualized study

Credits:

3

Area of study:

Science

Prerequisites:

At least 12 university-level credits including at least 6 senior-level nutrition credits. Before registering, students must submit an acceptable [project proposal](#) to the course coordinator, **Dr. Norman Temple**

Precluded:

None

Challenge:

NUTR 496 is not available for challenge.

Faculty:

[Faculty of Science and Technology](#)

Overview

These courses are suitable for senior-level students who wish to do research in nutrition. The courses are based on a learning contract between the student and an approved supervisor. The course typically includes choosing and defining a problem; obtaining information from libraries or the internet; field work or experiments; organizing facts and ideas; and reporting findings and conclusions in a written form. Projects can only be done on work planned; they cannot be done on work already completed. Contact the course professor before registering.

Evaluation

To **receive credit** [↗](#) for NUTR 495/496, you must achieve a course composite grade of at least a **C- (60 percent)** [📄](#).

To learn more about assignments and examinations, please refer to Athabasca University's **online Calendar** [↗](#).

Materials

This course either does not have a course package or the textbooks are open-source material and available to students at no cost. This course has a **Course Administration and Technology Fee** [↗](#), but students are not charged the Course Materials Fee.
