

Graduate Employment Outcomes

Sourced from the 2024 Graduate Outcome Survey of the Class of 2021-22

The Government of Alberta administers a Graduate Outcome Survey biennially. Of the 1,995 graduates of the class of 2021-22, 640 graduates completed the survey, resulting in a 32.1% response rate.

At the time of the survey, which was two years post-graduation, 95.5% of the graduates were employed. This is comparable to the 93.7% of graduates of all Alberta post-secondary institutions.

The majority of Athabasca University graduates indicated that their main job was very related to the program from which they graduated (56.5%), including the subject area knowledge they had acquired (58.1%) and the general skills and abilities they had acquired (68.9%).
